Mountain Weather Forecast

Eryri (Snowdonia) National Park

Forecast valid from 00:00 on Saturday 11 Nov 2023 until 23:59 on Sunday 12 Nov 2023

Forecast Issued on Friday 10 Nov 2023 at 16:01

Confidence: High confidence for a settled day on Saturday with sunny spells, lower confidence around fog development. Turning unsettled again later on Sunday but some uncertainty on timings of the rain's arrival, remaining unsettled for the start of the new week.

Headline for Saturday 11 Nov 2023: Any mist and fog clearing to leave a bright and dry day, feeling chilly in brisk winds.

Mountain weather hazards on Saturday 11 Nov 2023

Forecast for Saturday 11 Nov 2023

Weather: A few overnight showers but becoming mostly dry and clear, feeling cold overnight with mist and fog patches forming in more sheltered areas. A frost is likely in sheltered spots with northerly winds easing overnight. Mist and fog will clear in the morning to leave a bright and sunny day. Clear spells during the evening too.

Chance of cloud-free hill tops above 800m: 60% rising to 95%, as any mist and fog clears.

Low Cloud and visibility: Poor visibility at low level in mist and fog but likely good visibility towards the mountain tops. As fog lifts and clears summits may see patchy or scattered cloud shrouding them for a time. By late morning very little low cloud is expected with far reaching views likely throughout the day. Mist and fog patches may reform into the evening.

Meteorologist's View

Northerly winds falling light on Saturday but early in the day a significant wind chill can be expected. Feeling chilly out of the sunshine.

Forecast for Sunday 12 Nov 2023

Weather: A bright and dry start to the day, but a cold morning with some mist and fog patches likely initially. Cloud increasing from the west by late morning with some light rain spreading east during the afternoon, this may fall as sleet initially on the higher tops but turning to rain at all levels. Rain may be heavy for a time in the afternoon or evening.

Maximum wind: East or Southeast 20 mph gusts 35mph

Chance of cloud-free hill tops above 800m: 90% falling to 40% by late afternoon, low cloud associated with rain.

Low Cloud and visibility: Mainly clear during the morning, although where mist and fog patches have formed visibility will be poor for a time early in the morning. During the afternoon patchy low cloud will spread east falling below the summits, by late afternoon scattered or broken cloud above 500m can be expected with moderate or poor visibility at times.

Temperature: **Valleys:** Plus 1 rising to 7 Celsius.
At 800m: Zero Celsius rising to Plus 3 Celsius later.
Freezing level: 900m rising above all summits.
